Introduction

We seek to be at the forefront of developing a meaningful, flexible and engaging digital policy that enhances an already excellent educational provision. We remain clear that the best resource in each classroom is a highly qualified, well informed and enthusiastic teacher. Through our digital strategy we seek to broaden the educational experience and expertise of the School in a way which prepares our pupils and staff for a fast changing digital world. We firmly believe that by providing additional resources and opportunity through the digital environment our pupils will thrive academically and become better prepared learners for their careers. Use of devices can enhance learning. However, any pupil that chooses not to use a device will not be disadvantaged in their learning.

Links with other policies

This policy should be read in conjunction with other ICT policies, Online Safety Policy, Acceptable Use Policy and Safeguarding Policies.

Objective

Our objective is to enable pupils to safely use their own device to further their learning. This may involve using a personal computing device to support their independent study or, on the instruction of the teacher, in lessons.

Applicable year groups

This policy is intended for 6th Form Pupils. Pupils below 6th Form should not bring into school their own devices unless identified by the Learning Support Department and it forms part of their SEN provision.

Use of any device is at the discretion of the teacher and all pupils must use the device as directed. Where this policy is breached or abused by pupils, the School's Behaviour Policy applies.

Information for pupils and parents and/or guardians

- Prior to bringing a device to school for the first time, pupils and their parents and/or guardians are expected to read this policy, which sets out the responsibilities and expectations for use of personal devices. By bringing a device into school pupils and parents and/or guardians are accepting the terms of this policy.
- Pupils must use their device in accordance with the school's Acceptable Use Policy.
- Pupils must follow their teachers' directions as to appropriate use of their devices in class and must not use their device unless instructed to do so by a teacher. Using a device without permission will result in the device being confiscated and a parent and/or guardian will be required to collect the device from reception in accordance with the school policy on mobile devices.
- Pupils must connect their device to the designated wireless data network supplied by the school. Pupils must not bridge the school's designated network to any other network.
- Use of the device during the school day is at the discretion of teachers and staff. Pupils must use their device only as directed by their teacher.
- The device should only be used for educational purposes.
- Devices must remain on silent at all times.
- Devices must remain in pockets or bags unless permission for use is given by the teacher.
- Devices must be brought to school fully charged. The school does not provide facilities to charge devices.
- Each pupil is solely responsible for the care of their device and their conduct whilst using their device at all times whether at school, home or out of school.
- Pupils must be able to clearly identify their device.
- Devices may be used during break/lunch. They may be used in the Sixth Form Common Room.

- Devices must be covered by an up to date insurance policy.
- Any breach of this policy, including a phone being used or ringing in a lesson, will result in the device being confiscated and given to the school office until the end of the school day. If the rules are breached more than once you may not be allowed to bring the device into school at all.
- The School's Acceptable Use Policy applies to all pupils using any device in our school. It is a condition that all pupils adhere to this policy.
- The device should have adequate, valid and up to date anti-virus software installed.
- There should never be an expectation that pupils must have a device. Use of a device should be in addition to excellent teaching, adding value.
- The School accepts no liability in respect of the loss or damage to devices while at school or during off-site activities.
- The decision to bring a device into school rests with the pupils and their parents/guardians, as does the liability for any loss or damage that may result from the use of a device in school.
- Teachers should encourage and facilitate the use of pupils' devices in their classes only where they deem it appropriate. Pupils' use of their own devices in class is, however, at the sole discretion of the teacher.
- Teachers should follow standard discipline procedures if a pupil is using a device without permission.
- Pupils from all year groups who have been identified via the Learning Support department are able to use their devices where appropriate.
- The SENCO (Special Educational Needs Coordinator) will inform staff if pupils are permitted to use a device in lessons due to medical and/or accessibility reasons to enable them to access the curriculum.
